**Subject:** Dimock - Tox review for roll-out of data beginning next week?

Hi Dawn -

We are working to be ready to "roll-out" the first set of sampling results (11 homes). We have been given some tight deadlines and are doing our best to get the data validated and finalized to meet these deadlines. You obviously have a key roll in this process. I would like to talk to you about where we are and what the expectations are.

I have attached a data summary sheet and key to give you an example of what we expect to provide you for each sample location. The attached is final data (metals only). All results are listed - any results > than triggers are highlighted.

If you are working today please call me to discuss.

THANKS!!! - Kelley [Ex. 6 - Personal Privacy]

**Subject:** Tox Report

Kelley,

Attached is the cover for the analytical. This goes through all the descriptions of what is in the tox report (this will be changed to reflect what is in the residential report). I am still working on the residential report.
